100 anni di tradizione

COSTANTINI
PIETRO

1922 / 2022

100 years of history

EN

The Costantini Pietro story starts back in 1922, in the years when the Italian economy was beginning to pick up again after being severely damaged by the First World War. It is named after its founder, Pietro Costantini, a young apprentice in a chair factory, who opened his own workshop in San Giovanni al Natisone, in the area of North Eastern Italy known as the Italian chair district.

Pietro's success derived from his combining determined intelligence with skill, which led to him transforming a simple workshop into a thriving business. Its evolution over nearly one hundred years of history shaped a symbol of master craftsmanship into a designer product, part of the Made in Italy movement that is design, technology and meticulous attention to detail.

IT

La storia della Costantini Pietro inizia nel 1922, negli anni in cui l'economia italiana iniziava a risollevarsi dopo le profonde ferite della Prima Guerra Mondiale. Prende il nome dal suo fondatore, Pietro Costantini che, giovane apprendista di una ditta di sedie, apre la sua bottega artigiana a San Giovanni al Natisone, in quell'area a nordest del Paese che è conosciuta come il distretto italiano della sedia.

La forza di Pietro è nella sua abilità che, unita ad un volitivo ingegno, lo porta a trasformare quella che è una semplice bottega in una solida attività. La sua evoluzione in quasi cent'anni di storia l'ha portato ad essere da simbolo di maestria artigiana a prodotto di design, parte di quel Made in Italy che è progettazione, ricerca tecnologica e profonda cura per il dettaglio.

Tonalità chiare che danno vita ad atmosfere immerse in una raffinata pacatezza. Eleganza ariosa e senza tempo, che nasce dal trionfo della luce. Riflessi e nuance delicate amplificano gli spazi e donano un carattere sobrio ed essenziale, donando centralità agli elementi d'arredo.

Mid-Century Modern is the inspiration for this new Costantini range. Slender sections in the chairs contrast with the monolithic structure of the table. A stylish and functional solution, which only reveals the initial concept of removing solid pieces when the bases are admired close-up.

The central focus of the collection is the Icon table-sculpture and the sinuous intertwined ellipses of its distinctive base. The sophisticated design is completed by the soft curves of the Musa and Savoy chairs. Neo-Liberty inspiration furnishes the dining room with elegance and prized materials like marble and solid beech, without compromising on comfort.

The Boston collection is first revealed with the Air table, a balance of Modernist-inspired pure geometric shapes. We find the same design echoing in the Aida buffet, whose eye-catching metallic detail is picked up again in the embellished edging and gleaming armrests of the Hampton chair. Simple and refined.

A collection that delivers a contemporary take on the Art Deco style and early 20th century charm. A symphony of cylindrical elements, starting with the opulent base of the Splendor table and buffet, which are tempered by the soft design of the comfortable Bess and Smooth chairs.
